163 meals were served	

Tecumseh North Courtyard

Larry, Bob R. Ken and Mary, gathered on Aug. 6th to ready the Tecumseh North Elementary school courtyard for use by students and staff. Picnic tables were stained, flowers were planted, weeds were removed, umbrellas were set up for shade and the entire area was cleaned. It looks great!!! Thanks to all who participated in this project.

Body Venture Come to Tecumseh North

The Body Venture is an opportunity through the Kansas Department of Education for a health lifestyle program. The life sized walk through exhibit allows children to learn how the body uses food and fluids. The students walk into the mouth and eventually out the small intestine. Bob J., Ken and Mary helped with the assembly of the "body" which included large aluminum frames and colorful zippered covers. Jan served as a presenter informing the students about how her area of the body processed the food and fluids that come into the body. The exhibit is used to educate and promote healthy lifestyles.
